Deck Kit-1

©ErectADeck™ Deck Kits by Versadeck Decking, Inc.

- Dimensions in **RED** indicates the example size shown above.
- Dimensions in **BLACK** indicates the kit size options available.

Step 1. Select Deck Kit Size Options

Refer to the deck kit drawing above. Circle one of the dimension options located within the double sided white arrow lines. Circle only one dimension per white arrow line. If you like the example kit size as shown above, circle all the dimensions that are the color **RED**. Circle a **BLACK** colored dimension option only if you want a larger or smaller version.

Step 2. Select Decking Colors & Textures ✓

☐ Standard Texture on main deck area

☐ Extra Texture on stairs?

Deck Kit-1

Step 5. Take Photos and Make a Sketch

Include photo(s) showing the area on your home the deck will be attached. Include a distant photo of a straight on shot with the deck side area centered in the photo. Angled shots tend to distort the view.

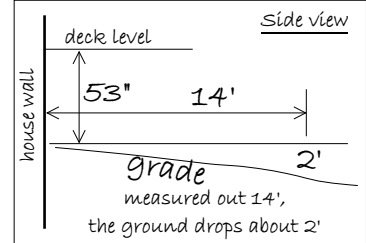

Tip#1 - Ideal Photo

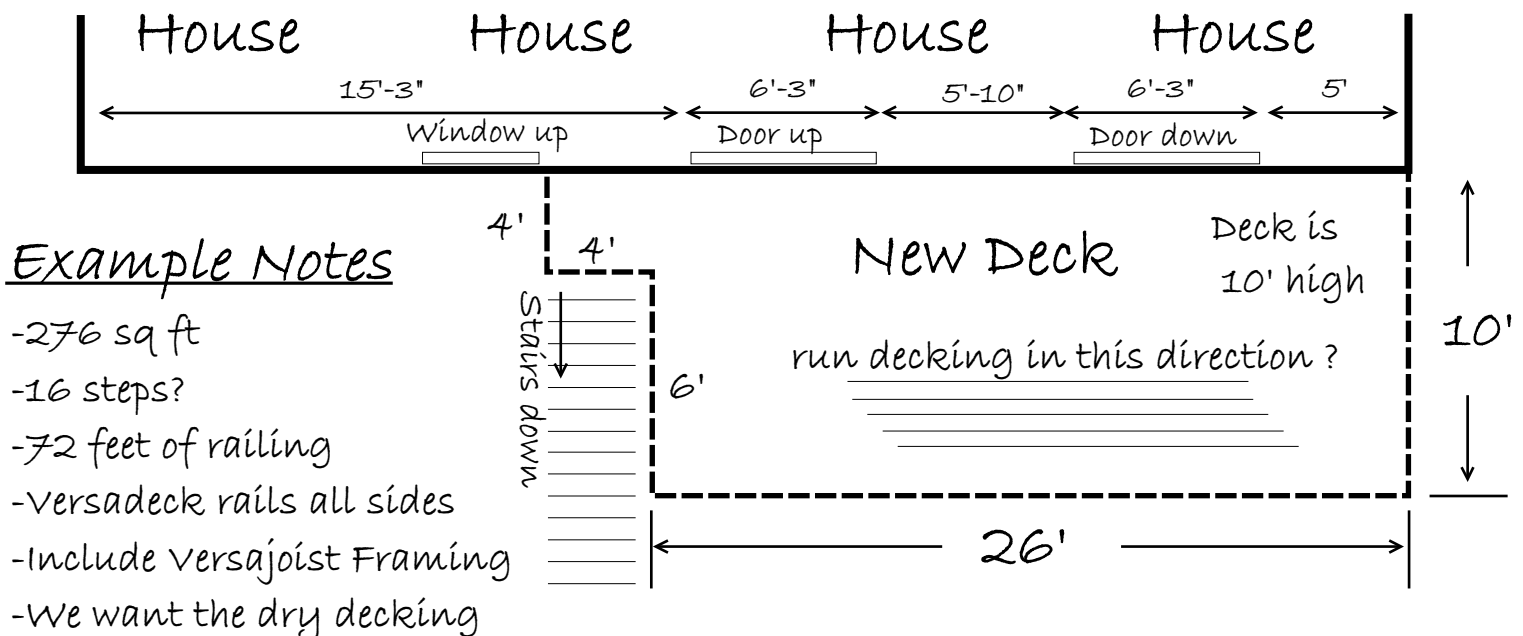

Not Ideal

Tip#2 - Elevation Photo and Sketch

Tip#3 - Draw a plan view diagram. (Include length, width and perimeter dimensions)

Use the Last 5 Pages for Diagram and Estimate

- We included deck draw sheets with a few questions.
- You can calculate price estimates and place an order.

_____	_____	

Step 7. Quote/Order Options

✓ ☐ **Free Simple Quote (not urgent)**

I was unable to figure out prices

I need a simple verbal quote at this time

You get on our list for a free verbal quote (a simple overall number).

Expect your quote within 1-3 days (after we process all others).

✓ ☐ **\$500 Formal Order (Drawings First)**

I completed this packet, price is OK

I mailed the check, proceed with formal drawings

You get on our design list, but not on our production schedule.

After completed, reviewed and approved, you go on our production schedule.

✓ ☐ **\$ Full Order Deposit Payment (Place Order)**

I completed this packet, proceed with order

I mailed the check, put me on your schedule

You're put at top of our design list and get on our schedule immediately.

The \$500 design fee is waived. We follow up next with formal drawings.

Versadeck™

Step 3: Fill in the Boxes

Step 4: Calculate Totals

psf=per square foot of deck

plf=per linear/running foot

(length x width = the total sf deck area)

example: (a 4 ft wide step = 4 linear ft)

How to:

Get Price Estimate for:

Total Sqft = X =
(L x W= sf area) (sf area) (multiply) (unit cost psf)

Decking Parts

(\$ PRICE)

How to:

Get Price Estimate for:

Total Sqft = X =
(L x W= sf area) (same as above) (multiply) (unit cost psf)

Framing Parts

(\$ PRICE)

How to:

Get Price Estimate for:

Total LF = X =
(total running feet) (LF of rail) (multiply) (unit cost plf)

Railing Parts

(\$ PRICE)

How to:

Get Price Estimate for:

Treads = X ft = X =
(# of steps?) (# treads) (tread width) (total LF) (unit cost plf)

Stair Treads

(\$ PRICE)

Sum of Above (USD) (freight is extra) **TOTAL =**
